New Program ✦✦✦ New Venue ✦✦✦ Experienced Faculty

With over 20 years experience teaching family law trial advocacy, the faculty of the Family Law Trial Institute has developed a proven method of instruction for family law attorneys seeking to advance their courtroom skills. Based upon the successful NITA model of trial advocacy, our faculty continues this tradition of teaching excellence with an intensive family law focus. Using the latest technology within small group and individualized settings, you will:

- ✦ Learn strategies for direct and cross examination of psychological and financial experts
- ✦ Understand the use of psychological testing and its role in your custody case

- ✦ Understand business valuation litigation techniques

In addition to small group and individualized instruction, experienced family law litigators from across the country provide live demonstrations of techniques through lecture and role playing. Included among the special presentations are business valuation, evidence, use of psychological tests, and effective trial strategy.
